

Proceedings of the Shropshire Geological Society

No. 13 2008

Contents

1.	Rosenbaum, M.S.: The ground beneath our feet: 200 years of geology in the Marches	1
2.	Rayner, C. & Collings, A.: Some words of welcome by the organising societies	5
3.	Toghill, P.: An introduction to 700 million years of earth history in Shropshire and Herefordshire	8
4.	Richards, C.: The mark of distinction: local character shaped by landscapes and building stones	25
5.	Lloyd, D.J.: Local character shaped by landscapes	27
6.	Jenkinson, A.: From the Ground, Up: vernacular building stones in a border landscape	33
7.	Cocks, L.R.M.: Palaeogeography of the Lower Palaeozoic	49
8.	Siveter, David J.: The Silurian Herefordshire Konservat-Lagerstätte: a unique window on the evolution of life	58
9.	Baldwin, H. & Dunne, P.: Geology in the community: the role of national government	62
10.	French, G.: Geology in the community: with particular reference to the Shropshire Geodiversity Action Plan	64
11.	Torrens, H.S.: Geological pioneers in the Marches	65
12.	Stevens, R.L.: Challenges for the geoscientist: an international perspective	77
13.	Rosenbaum, M.S. & Hodgson, J.M.: In remembrance of Dr Peter Cross	83
14.	Pannett, D.: The Ice Age Legacy in North Shropshire	86
15.	Richards, A.E.: Glaciation and drainage evolution in the southern Welsh Borderland	92
16.	Rosenbaum, M.S.: The future for geology in the Marches	100
17.	Dewey, J.F. & Rosenbaum, M.S.: Future avenues of research in the Welsh Borderland, with particular reference to terrane tectonics	104
18.	Schofield, D.I.: The future for geology in the Marches: a BGS perspective	114
19.	Banks, L.: Closing Address: the Banks family and their support for geological studies in the Marches	121
